Ty Be Farms

Red
Angus

We established our herd with one thing and one thing only in mind,

THE GREAT RED ANGUS FEMALE.

Blockanna, Bonnebell, Eleanor, Mimi, these are legendary lines in the Breed. Each of these great Red Angus donors in our pen allow us to focus on clean udders, sound feet, big bone, correct structure, fertility, and vigor. A better bull has to be born from a better female. And that is our focus.

We sell commercial bulls private treaty and also offer our best seedstock females to give outcross opportunities to our Red Angus friends.

Take a moment to call & visit about what our focus can do for your herd.
Brad: 417/437-5052 or Tim: 731/676-3133

We don't have a lot of quantity, just a lot of quality

Semen Lots

LOT A - LACY SIGNATURE 459

[Reg. # - 1735821] // Calved: 9/18/14

5L SIGNATURE 5615 x LACY LANA 024

HB: 112 **GM:** 53 **CED:** 2 **BW:** -0.6 **WW:** 69 **YW:** 113 **MILK:** 29 **ME:** 1 **HPG:** 17
CEM: -3 **STAY:** 12 **MARB:** 0.92 **YG:** 0.04 **CW:** 36 **REA:** 0.36 **FAT:** 0.02

Selling 10 Straws. FOB Genex/Stafford

Signature 459 is a young, dark red herd bull sired by 5L Signature 5615 & out of an excellent P707 x Make Mimi daughter. We used "459" as a yearling on our 2-year old heifers. His first calves come easy & are some of the most phenotypically flawless calves in our pasture today.

Donated by LACY'S RED ANGUS, Dan Lacy

LOT B - LACY FOUNDATION 448

[Reg. # - 1735777] // Calved: 9/20/14

LACY CHATEAU 6089 x LACY MS ANNIE 6132

HB: 60 **GM:** 49 **CED:** 0 **BW:** 0.6 **WW:** 69 **YW:** 102 **MILK:** 24 **ME:** 1 **HPG:** 9
CEM: 4 **STAY:** 7 **MARB:** 0.37 **YG:** 0.01 **CW:** 31 **REA:** 0.21 **FAT:** 0

Selling 10 Straws. FOB Genex/Stafford

Foundation 448 is the latest addition to our herd bull battery. He is sired by LACY Chateau 6089 & out of an excellent Linebacker x Rambler 5162 daughter. We are super excited about this bulls future & will have our first "Foundation" sired calves on the ground by sale day.

Donated by LACY'S RED ANGUS, Dan Lacy

LOT C - LACY INNOVATOR 018C

[Reg. # - 3470032] // Calved: 3/18/15

LSF NIGHT CALVER 9921W x LACY LAKOTA 35L 300

HB: 160 **GM:** 53 **CED:** 13 **BW:** -6.2 **WW:** 53 **YW:** 87 **MILK:** 31 **ME:** 1 **HPG:** 13
CEM: 5 **STAY:** 14 **MARB:** 0.75 **YG:** -0.03 **CW:** 13 **REA:** 0.5 **FAT:** 0.05

Selling 10 Straws. FOB Genex/Stafford

Innovator is a good deep muscled bull that sold in our 2016 sale. He combines EPDs & actual performance in one stylish package. He is a direct son of the popular LSF Night Calver 9921W. Innovators dam is a moderate framed, phenotypically correct Gold Bar daughter with a perfect udder. Use him with confidence on heifers & to improve udder quality, milk & carcass value. Owned jointly with McCarty Cattle Co. of Novinger, MO.

Donated by LACY'S RED ANGUS, Dan Lacy

LOT D - LACY CORNERSTONE 069C

[Reg. # - 3522987] // Calved: 9/18/15

LSF SAGA 1040Y x LACY MS ANNIE 6132

HB: 127 **GM:** 49 **CED:** 8 **BW:** -1.9 **WW:** 63 **YW:** 96 **MILK:** 23 **ME:** -3 **HPG:** 12
CEM: 7 **STAY:** 12 **MARB:** 0.36 **YG:** 0.07 **CW:** 24 **REA:** 0.22 **FAT:** 0.04

Selling 10 Straws. FOB Genex/Stafford

Cornerstone is one of those bulls that stood out from day one. Sired by Saga 1040Y & out of a tremendous Linebacker 123H daughter. Use Cornerstone to produce stout, big hipped cattle that is full of meat & muscle. Owned jointly with Middle Creek Red Angus of Schulenburg, TX.

Donated by LACY'S RED ANGUS, Dan Lacy

LOT E - LACY REVOLUTION 298Y 095C

[Reg. # - 3523009] // Calved: 9/13/15

5L INDEPENDENCE 560-298Y x LACY VERDALE 0235

HB: 172 **GM:** 52 **CED:** 11 **BW:** -2.7 **WW:** 70 **YW:** 105 **MILK:** 24 **ME:** 0 **HPG:** 12
CEM: 6 **STAY:** 16 **MARB:** 0.55 **YG:** -0.29 **CW:** 28 **REA:** 0.73 **FAT:** -0.05

Selling 10 Straws. FOB Genex/Stafford

Revolution brings an unmatched EPD profile to the table & was the high selling bull in our 2016 sale. Sired by 5L Independence 560-298Y & out of a flawless Legacy 8078 x Gold Bar daughter who maintains a 112 MPPA. With his 11 CED & -2.7 BW, Revolution is an excellent choice to provide calving ease yet he gives you real world performance with his breed leading HB (2%) GM (6%), WW (13%) & YW (19%) values. Couple that with a top 2% Stay, 3% YG & 1% REA! Owned jointly with Frank Zermeno of Goldthwaite, TX.

Donated by LACY'S RED ANGUS, Dan Lacy

LOT F - CR DINA'S BULLETT

[Reg. # - 1423989] // Calved: 3/11/11

SIX MILE WIN-CHESTER 745W x UBAR DINA 754

HB: 71 **GM:** 47 **CED:** 0 **BW:** 1.4 **WW:** 70 **YW:** 101 **MILK:** 19 **ME:** -3 **HPG:** 10
CEM: 1 **STAY:** 9 **MARB:** 0.1 **YG:** 0.08 **CW:** 32 **REA:** -0.1 **FAT:** -0.02

Selling two packages of 25 straws each.

Stored at Hawkeye Breeders Service; Adel, Iowa. Buyer pays shipping.

He is NOT DNA'd but if the buyer wants to register his calves I (owner Jennifer Gardner) would be willing to pay for the DNA testing of a straw of his semen.

Donated by CR Cattle Company, Jennifer Gardner

A package of 4, Grade 1 IVF Embryos. Embryo Package is donated FOB Origin/Freight Prepaid (by buyer): Hoofstock Genetics, 4584 FM Rd 570, Ranger, Texas 76470.

Crush 16B is an elite bull from the Northline Red Angus breeding program, who is proving to be well suited to improve any breeding program. Crush 16B was selected as the Gr. Ch. bull at Farmfair Int'l (2015), FWSS (2016) & Houston (2016) he is quickly becoming a breed leader even for his young age. Crush has excellent feet, excellent hip structure, natural muscle & a great disposition. His first calves have been born unassisted on heifers which reflects his 78 lb BW. This FWSS Championship mating is completed by matching the 2016 FWSS Gr. Ch. Red Angus Bull with the 2009 FWSS Gr. Ch. Female Red Angus Female, Brown Ms Made Right T7641. As a donor cow, Ms Made Right made her mark on the Red Angus industry by producing some of highest performing range ready cattle through successful flush matings with Nebula P707. She also produced stellar show progeny through flush matings with Cowboy Cut & Rock Star. Made Right's genetics can be found passed on through her progeny like Brown Ms P707 X7578, grand progeny including Brown Ms Final Answer Z2733 & through great grand progeny such as Dunn Acquisition B506. It is very seldom that you find a cow that is truly capable of producing high quality cattle for the range & the ring. Great Genetics are Great Genetics.

General Information

OZARK RED ROUNDUP 2017 BULL & FEMALE SALE

Springfield Livestock Marketing Center - Springfield, MO
SATURDAY, APRIL 15, 2017 || SALE at 12:00pm CDT

Welcome to the Ozark Red Roundup Sale --

The daily and monthly challenges of the beef industry are nothing new for experienced cattlemen and women across the United States. The volatile cattle prices with falling prices last summer and a fairly deep dip in prices late in the fall of 2016 brought everyone back to reality. But let's put things into perspective. The single thing that never changes is -- top quality animals will always bring the most dollars. And while commercial cattle prices have decreased in the last 18 months, Red Angus have continued to demand the highest prices for commercial replacement females than any other breed in the market place. Demand for quality Red Angus bulls is up even though sale averages are down due to the cattle market in general.

My point is, **NOW may be THE BEST TIME** to invest in Red Angus genetics than ever before. The Missouri Ozark Red Roundup has become known for some of the highest quality Red Angus cattle selling in the United States and the folks that bring cattle to this auction are dedicated to providing superior genetics for the region. If you plan to continue or expand in the beef business, I believe the spring of 2017 will prove to be one of the best times in history to invest in quality cattle that will continue to generate a profit for years to come. As I write this letter, Red Angus compose 17% of the overall commercial beef industry, leaving a huge opportunity to continue gaining market share. With the very desirable traits Red Angus offer (i.e. calm disposition, strong maternal traits, rapid growth and high marbling), cattlemen and women are investing in Red Angus at a historical record pace with much more growth anticipated. Today is a great time to be in the Red Angus business.

Please study this catalog in depth and call any of the consignors or myself with questions you may have. As I said earlier, the quality in this auction is always second-to-none and the Missouri Red Angus Association put on a top-notch event year after year. Lisa and I will be in Springfield on Friday, April 14th and Saturday, March 15th for this prestigious event. If we can be of any assistance to you, don't hesitate to call.

We look forward to seeing you in Springfield, Missouri!

Best Regards,
Kyle & Lisa Gilchrist

Sale Terms & Conditions

Terms -

Terms of the sale are cash, check, or other terms agreed to in writing between the seller, buyer, and sale manager payable immediately upon conclusion of the sale before animals will be moved. Sale manager reserves the right to require a certified check as settlement before releasing any cattle.

Purchaser's Risk -

All animals are the owner's risk prior to their sale and become property of the purchaser as soon as declared sold by the auctioneer.

Bidding -

Any disputes or challenges regarding bids or tie bids will be settled by the auctioneer and his decision will be final.

Certificate of Registry -

A certificated of registry for each animal will be transferred to buyer at the seller's expense.

Announcements -

Any errors or changes in information contained in the catalog will be announced from the blog and such announcements shall take precedence over the information contained herein.

Health -

All animals are eligible for interstate shipment. Interstate health papers prepared by an accredited veterinarian will be furnished on each animal sold. Arrangements for international shipment should be made with the sale manager prior to the auction. All efforts for exportation of cattle can be arranged through the sale manager.

Breeding Guarantee -

All animals are guaranteed by the seller as outlined in the Red Angus Association of America code of ethical sale practices.

Online Bidding -

For General Questions Please Contact Our Office:
(402) 316-5460 or support@dvauction.com

Liabilities -

All persons who attend the sale do so at their own risk. The seller, auction facility, and sale manager assume no liability for any accidents that may occur. Neither does the seller, auction facility or sale manager assume liability for the loss or injury to livestock due to theft, mysterious disappearance, sickness, improper handling or act of god. It is to be clearly understood that the sale manager and its representatives act only as a medium between the buyer and the seller. They are not responsible in any way for the failure on the part of the buyer and the seller to live up to their obligations or for the truth of any warranties or representation, express or implied. Neither does the sale manager assume any financial obligations to collect or enforce collection of monies between parties. Any legal action, that may in exceptional cases be taken, must be between the buyer and the seller. This catalog has been prepared by the sale manager from pedigrees and information supplied by sources deemed reliable, however, the sale manager will in no way guarantee the pedigree, percentages of the animals selling, or data included in this catalog. Any exceptions taken are between the buyer and the seller.

Contract -

The above terms and conditions of sale shall constitute a contract between the buyer and seller of each animal and shall be equally binding upon both. Each sale or resale of an animal constitutes a separate transaction.

Telephone bids -

Telephone calls will be taken by the sale manager. Kyle Gilchrist's cell phone number is 641-919-1077.

Red Angus Feeder Calf Certification Program

For nearly two decades the FCCP has been delivering results for bull customers using ONLY Red Angus

  **Genetic, Source & Age**

Released in 2012, Allied Access provides an added-value option for Red Angus customers using multiple breeds in a rotation, hybrids and/or composite bulls to capture heterosis in their crossbreeding programs.

Category 1A Spring Born Open Heifer

1634 was a hard decision to let go. Phenotypically and Genetically this heifer has a lot of great things going for her. I really love these Smoke Signal calves with their deep cherry red color, pattern, and thickness.

Category 1A Spring Born Open Heifer

1637 comes out of a first calf heifer that did a tremendous job. 1637 is a smooth made heifer that has great eye appeal. This heifer's epd's are strong in calving ease, birth weight, milk, and goes along in my theory of epd's of keeping them in the middle. She is a very complete heifer that could work in any direction.

Category 1A Fall Born Open Heifer

Here is an outstanding September heifer calf sired by LSF Saga 1040Y & out of a beautiful Gold Bar 0251 daughter. She combines style with performance and has all the tools to be an exceptional producer in any program in the country. Maternally, 103D is backed by the genetics of Gold Bar 0251 and our historic donor VDAR REBALAS 401. Her dam, LACY Lakota 9049 is a tremendous moderate framed cow with breed leading Milk & a perfect udder. We were fortunate enough to raise a full sister last year & that is the only reason she sells.

Category 1A Spring Born Open Heifer

We call D10 - Little Ney - after her dam, Ney Ney, who proved her greatness as Res. Grand Ch. Female at Ft Worth and also GC Female at the TN State Fair the same year. One of the best, if not the best, Mimi daughters we have ever seen, Ney Ney B132 has started her progeny years off with a bang with her first calf by C Bar Evolution. Little Ney is a moderate efficient yearling that shows great muscle and is solid everywhere. Like one of the judges once said of her dam, "if you folks can find a hole in this one I will be waiting after the show to discuss it." We committed to Kyle to bring our best to Springfield and Little Ney delivers on that promise. She has the phenotype, the numbers, and adds to that the absolute best disposition of her dam. Ney Ney is my favorite cow on the place and even after being treated like a donor with all the shots, still comes up to me in the pasture to be rubbed. . . and if you don't she will nudge you to remind you of your duty. Whether you want to start a great herd, add a great female to your existing one, or need a show heifer. . . this choice is easy. Little Ney sells open and ready to breed to the bull of your choice. Check out Ty-Be Farms facebook for latest photos and videos.

Carmen 024D is long, deep, and dark red! Out of a Mulberry 26P daughter, she has garnered our attention from the start with her eye appeal. She could be a worthy competitor in the show ring or a front pasture female to add to your inventory. We are proud to offer you this fantastic female that represents our first calf crop sired by A-1 Andiamo 9A!

Rachel 210D is an ET calf out of our donor cow from the popular "Rachel" cow family at Rich Red Angus in Iowa. She has a great combination of a negative BW EPD with a 69 WW and 111 YW EPD's. To her credit, she has kept right up with the other calves even though she came in a somewhat weak first-calf heifer recip. Take a look at this Rock Star sired young lady that brings an eye appealing style along with performance!

Category 1A Bred Heifer

SCLC Windsong 5003 comes to the Roundup sale as a full sister in blood to the 3 other Cowboy Cut x Windsong 0269 daughters, selling as lots 25 - 27. She is a direct daughter of the Windsong 0259 donor that highlighted last year's sale going to the progressive multi breed operation Southern Cattle Company of Florida. The story here is much the same as with her sisters, top tier EPD's for growth and REA that match this stout made female in the pen. You make the call here, but this bred is flat out good, look and style to burn with as much body, balance, stoutness, and rib shape as you can put together in one package. As an added bonus she sells bred to the combination bull CBAR Evolution. Confirmed AI bred to C-BAR Evolution 107Y 12/30/16.

Consigned by **Shoal Creek Land & Cattle LLC / Ed Rule, Owner / J.R. Richburg, Cattle Mgr.**

Registered 1A 100% Females

2017 marks the first year we have offered any direct daughters of our foundation donor 0269. With a few taking their place in the herd and more on the way, we felt now was the time to share some of her exceptional progeny. There's a reason we have focused so closely on expanding the Windsong 0269 genetics. The simple fact is she is the most impressive Red Angus female we've laid eyes on and to us quality is of paramount importance. The Cowboy Cut daughters presented here are prime examples of her ability to consistently transmit true dimension, power, and growth with the right balance of function and presence that is the mark of quality purebred breeding pieces. They are so consistent in type that the sorting decisions will be tough to make. They all sell AI bred to the combination phenotype and data sire C-BAR Evolution, stacking the Windsong and Abigrace cow families.

Category 1A Bred Heifer

All the real cowmen in the crowd will appreciate this soggy, cowy, and huge ribbed daughter of Cowboy Cut. SCLC Annie 5019's stoutness, mass, foot size, and broody type is the result of a calculated decision to leverage the advantages of the power bull Cowboy Cut with the function and form of a practical Legacy female. She was the top ranking weaning weight female among her natural calf contemporaries and backs that up with data that matches. Regardless of the sex of her progeny, she's bound to produce the kind with the fundamental ability to weigh up and look good doing it. She sells bred AI to CBAR Evolution. Category 1A Bred Heifer

This heifer is sired by the one and only HXC Conquest 4405P and has a maternal granddam that has been the most influential cow in the Armstrong's herd. The dam's 2016 heifer calf was selected by Eskimo Cattle Co. to start a career as a show heifer prospect. We expect this heifer to continue to develop into the genetics she has. She was PE to KCC Bountiful 970-449 (Reg #1699407) from 12/10/16 - 2/11/17.

Consigned by Armstrong Red Angus / Darrell and Derek Armstrong

I was impressed with this calf since it was born. A Six Mile Kruger daughter out of the great Mahgnbery cow family. This heifers is a maternal sister to Adam's current show heifer that he is winning with. Look at her performance and growth. If we did not have her sister (pictured), we would not be selling her. She is bred to Missionary Man 133 aka M&M for an early September calf. Don't miss this opportunity to get a great cow family bred to a great bull.

The Rebella cow family goes back decades and counts the great 102-502 cow of the Raislands in that lineage. C51 brings that greatness into today with the almost impossible trifecta of phenotype, EPDs, and efficiency. This Brown Redemption daughter delivers on all counts and is selling confirmed bred to our calving ease specialist bull, RMS Ballentine, for a Sep/Oct calving date. Ballentine batted a 1000 for us last with year with all live calves hitting the ground. He adds muscle and bone to his offspring and is a bull that delivers solid feet also. This Rebella C51 bred heifer carrying a calf by a proven Red U2 Mission son will take a long time to duplicate. Check out Ty-Be Farms facebook for latest photos and videos.

Bachman X390-WRK984 (affectionately known as Emily) was the Reserve Champion Female at the 2014 Ozark Empire Fair Open Red Angus Show. She is very capacious, long bodied and well-bred on both sides from the Scott Bachman farm. She is a Bieber Makin Hay daughter. She is bred to Sawyer Conquest #3470420, who has 4 EPDS in the top 10% of the Red Angus breed. The ONLY reason she is being sold is due to the fact the Martin boys are having to trim down their herd as they are both in university studies.

Category 1A Bred Cow

A great young cow out of Perks Kenworth. She is due to calve around sale date to Lacy Cody (#1520584). She is a moderate framed cow with lots of volume and rib. I hate to sell her but I can't see them all. She will make a great addition to any herd. (Comes with 2 units of semen on Missionary Man 133 aka M&M).

AY1439 comes from a proven low RFI bloodline. If you want feed efficiency and excellent EPD's from a cow family with a 101 mppa here she is. Mesmer Packer and BJR JR107 is in this dependable pedigree. Her half-blood daughter will be in our show string summer of 2017. She has an AI date of 12/1/2016 to Jacobson Freedom (RAA #1699260) and she is pasture exposed to Brag BT19 (RAA #1738465).

Here is a tremendous Brown JYJ Redemption Y1334 daughter who is a perfect picture of productivity. She has been a real keeper from day one. We would not part with her if we did not have her 12yr old dam (MPPA 103.48) and a full 2yr old sister in production. This female is deep, thick, broody and very maternal. At her side is a bull calf sired by MAF MR TRILOGY W10 B11 Reg#1692672, who came small and will grow rapidly, making someone an outstanding herd sire. B12's incredible EPD set places her in the very top of the breed for WW (top 6%) YW (top 4%) Stay (top 12%) CED (top 11%). Her bull calf at side is a calving ease option that will grow rapidly and should stand at the very top of his class in EPD rank.

This first calf heifer is a Rock Star daughter with solid Beckton genetics on the bottom and great EPDs. She has a perfect udder and has done a great job early on with her first calf, a Gran Torino daughter. We lost Gran Torino last year, and it was great to watch B20 have his calf in the pasture unassisted. Like all his calves, B20's new heifer calf has tremendous vigor with big bone and strong hip. A two for one deal for the lucky new owner. The daughter will probably out-perform her dam. Eola Star sells open, ready to breed and with her February 17 born Gran Torino heifer calf to boot. Calf's registration number is 3602692. Check out Ty-Be Farms facebook for latest photos and videos.

Red Angus Guide to EPDs

HB HerdBuilder Index – Need bulls for developing a profitable cowherd and maximizing the value of marketed progeny? Select a bull with a high HB value.

GM GridMaster Index – If you market all of your calf crop and want to increase the value of that calf crop, select a bull with a high GM value to maximize your profit.

CED Calving Ease Direct – Breeding Heifers? Select bulls with a high CED to increase the probability that the heifers will calve unassisted.

BW..... Birth Weight – Predicts differences in birth weight. BW is included in the CED EPD, so simplify your decisions by selecting bulls based on CED instead of BW.

WW Weaning Weight and **YW** Yearling Weight – Predicts differences in weight at weaning and yearling. While selection based on these growth measures can increase your payweight, be cautious what the bull's other EPDs are.

Milk Milk – Predicts differences in weaning weight of daughter's progeny due to milk production.

ME Maintenance Energy – Selecting bulls with a lower ME EPD will decrease the amount of feed his daughters will require to maintain body weight.

HPG..... Heifer Pregnancy – Retaining heifers? Select bulls with a high HPG to increase the percentage of exposures that result in a calving observation.

CEM Calving Ease Maternal – Another number to pay attention to if you are retaining heifers. Selecting bulls with a high CEM will increase the probability of those daughters calving unassisted.

STAY.... Stayability – The most important trait if your goal is developing cows that stay productive, thus increasing your profitability. Bulls that have a high Stay EPD are expected to sire daughters that remain productive in the herd until at least 6 years of age.

MARB .. Marbling Score – Select bulls with high MARB EPD to increase the number of progeny that grade Choice or Prime.

YG Yield Grade – Marketing calves on a grid? Placing selection pressure on YG EPD will decrease the number of YG discounts on grid-marketed progeny.

CW..... Carcass Weight – Selecting bulls with a high CW EPD will increase the weight of the hanging carcass, which directly impacts revenue.

REA Rib Eye Area – Need to add muscle? Select bulls with a high REA EPD to increase rib eye area, which favorably increases Yield Grade.

FAT Backfat – Need to reduce waste in carcasses? Select bulls with a low FAT EPD to reduce backfat, which favorably increases Yield Grade.

Ranch Tested. Rancher Trusted.

Flush to the Bull of Buyer's Choice

Genetic opportunities like these rarely come available, so take advantage while you can. We are swinging the gates wide open and offering a conventional flush of our proven donor Windsong 0269 to the bull of your choice. She was the high selling female of the 2013 Ozark Red Roundup and has been an integral part in advancing the quality of the Shoal Creek program. The pages of this catalog and several other high profile sales have been blessed with the descendants of the Windsong cow family which have been met with anticipation for quality by progressive breeders. The Windsong bred heifers we have consigned this year serve as examples of the power, balance, look, and growth that her progeny are capable of. The Mulberry females are some of the most cherished and sought after in the breed. Windsong 0269 is currently open, fresh, and ready to flush as soon as sire selections are made. Past flushes have yielded a range of 8 to 20 embryos with an average of 14 per flush. We are guaranteeing a minimum of 6 transferable embryos with an open top. Flush work will be performed at Cross Country Genetics in Westmoreland, Kansas. The buyer will be responsible for semen and associated flush and freezing costs.

Selling 3 #1 embryos with buyer receiving 4th at no cost or further guarantee. (Embryos will be available sale day or shipping can be arranged at buyer's expense.)

Ranking in the top 1% on the Herdbuilder and 4% Gridmaster indices, 5L Independence is a real cow herd builder! The dam of this mating, Kuruba 321T, boasts a top 1% CEM and ranks in the top 11% HB. She is smooth made and has plenty of eye appeal with a massive rib cage, clean front, good feet, and a remarkable udder (as pictured at 10 yrs of age). She is a daughter of the renowned Mulberry 26P and joined on the maternal side with legends like SSS Zama Pine 37S and Sams Prospector 133Z. This mating generates a strong set of EPD's that could easily produce your next heifer bull or foundation female.

Selling 4 #1 Embryos with 1 guaranteed progeny.

We paid \$7,000 to flush 36W and were blessed with 30 embryos. JKC Berry Advance is owned by David Spencer of J-6 Inc. in Gibbon, Nebraska. 36W was a sale highlight at the 2011 Mile High Classic bringing \$33,000. She is a Mulberry 26P daughter out of the powerful Ms Advancer of 4L R230 cow raised by VonForrell Ranch out of the popular Perks Advancer 9088 sire. On the sire side is an outstanding young sire from Chuck Feddes. Feddes Silver Bow B226 is a Redemption Y1334 son out of an up and coming young Hobo Design cow that now has three outstanding calves on her record and a 111.33 MPPA index on one of the top Red Angus herds in the country! Don't miss this opportunity.

Offering 1 package of 3 grade 1 conventional embryos.

With the decision to offer the first daughters of our Windsong donors, we have decided to add to the offering a set of embryos sired by the Mann Ranch and Solution Genetics sire SLGN Wideload 920W. These embryos are out of Harmonys Windsong U28E, a full sister to our foundation Windsong 0269. We had planned to picture U28E at calving time this last fall, but unfortunately lost her before that opportunity came. These are the last of the Wideload embryos and are full siblings to the SCLC Windsong 5025 bred heifer in this year's sale. They combine several of the breeds legendary sires and dam's including UBAR High Capacity, Meado West Persuasion, and the sought after Mulberry, forming a predictable blend for maternal excellence.

Category 1B Open Heifer

Martin's Becky 1940D exhibits the characteristics of her sire, the power bull REGENT who was Grand Champion Red Angus Bull at the Arizona National Livestock show 2014 and at the Ozark Empire Fair 2014. She is capacious, well muscled and moderately framed heifer with an excellent disposition. Her genetic lines are superior coming from Beckton, Mushrush, Brown, Pelton and Harmony Hills. She is halter broke and will serve your herd well! She is 1B.

Category 3 Open Heifer

This is a thick young heifer from the very popular Andras Fusion R236 bull. This heifer has some very strong epds: CED at 11 (top 8%). Her HerdBuilder Index is 111 (top 29%), and GridMaster Index of 50 (top 29%). This heifer had a 111 weaning ratio in our herd. 64D is from one of our older cows, which has been a top producer for us. 64D should be a very strong cow.

Category 1B Bred Heifer

This larger framed heifer comes from a Spretutels cow that is just flat out getting it done. Her 112.3 MPPA score is off the charts. The top 6% WW, 9% YW, and 9% CW EPDs came true. She was PE to KCC Bountiful 970-449 (Reg #1699407) from 12/10/16 - 2/11/17. This heifer has always had extra eyes on her as "Pops" has allocated the cow to his oldest grandson Ayden; this is Ayden's first calf to bring to the auction. Ayden was with the calf when it hit the ground to help weigh/ear tag her, in the weaning pen with her, and is planning to be with her on sale day.

Her weight on 11/5/16 was 800 lbs. She was AI bred to C-T Red Rock #3471552 (son of Redemption) on 12/8/16, safe to AI with heifer calf.

Consigned by Spreutels Farm / Wilbur & Elsie Spreutels

Brickhouse Farms Bull Development

Located in North Central Tina, Missouri the bulls got acclimated to an ever changing environment. **Grandpa always said, "If you don't like the weather just wait another day."**

These bulls were housed in a roomy 4 acre rectangular paddock with 155 feeder heifers across the fence (exercise was not a problem). We use a vertical mixer and presented the feed into concrete, fence line bunks as a TMR (Total Mixed Ration). These bulls were fed fescue hay, Staymoist protein, corn silage, Amino Gain, and cracked corn with a target diet of 54 mCAL.

ALL BULLS WERE:

- 50K TESTED
- BREEDING SOUNDNESS EXAMINED
- WEIGHED FOR AN ADG TEST THAT COVERED 112 DAYS
- ULTRASOUND EXAMINED FOR REA, MARBLING, & BACKFAT

All vaccinations have been administered so bulls will be fully ready for turn out at auction time. All data recorded will be available in a supplement sheet the day of the sale.

This Oscar son out of a Gold Trust dam has performance. Look at his weaning and yearling EPDs. You sell calves by the pound. He was one of the younger bulls in the test. Look at his data. Being the youngest and lightest bull to start the test, he still gained 3.93 #/day. Buy with confidence that his calves will gain, and if you want to keep his heifers, he has the bloodlines to do it.

DLA King Duchess Lacy is out of a high milking direct daughter of King Rob that I purchased in this sale last year as a pair. King Duchess has the right makings of being a cow maker with his sire being out of the Lacy program and his 7 year old King Rob dam being a high milker and having a tremendous udder with perfect teats. This is a good opportunity to buy a King Rob and Lacy Legacy grandson that you can use on heifers and cows.

Martin's Rachel BEC4 hails from the great power bull REGENT, the Grand Champion Red Angus Bull at the Arizona National Livestock show 2014 and Ozark Empire Fair 2014. She is moderately framed, capacious, and has a wonderful disposition. Her genetic line runs from the Brown, Mushrush, Pelton, and Harmony Hills lines. She is halter broke and will be an excellent cow for any herd. She is 1B.

Martin's Becky 1940D exhibits the characteristics of her sire, the power bull REGENT, the Grand Champion Red Angus Bull at the Arizona National Livestock show 2014 and Ozark Empire Fair 2014. She is capacious, well-muscled and moderately framed heifer with an excellent disposition. Her genetic lines are superior coming from Beckton, Mushrush, Brown, Pelton, and Harmony Hills. She is halter broke and will serve your herd well! She is 1B.
