

BACHMAN CATTLE FARMS, LLC

INVITES YOU...

to our Private Treaty sale

Bachman Cattle Farms has great pride in knowing that the cattle we create are based on our philosophy of our "75/75/35" goal. We want at least 75% of our seedstock herd to have at least 75% of their EPDs in the Top 35% of their breed ranking. We combine this with striving for easy-fleshing, structurally correct cattle that are eye-appealing, gentle with maternal profitable traits.

June 2020

WELCOME TO THE SALE!

Sue and I welcome you to our third private-treaty event sale for Bachman Cattle Farms, LLC. We like to use the term "Game-Changer" to describe the offering we are making available to you in this sale. We believe God requires us to give Him the best we have to offer, and we feel blessed to offer some of the best genetics we have here on the farm.

This "Game-Changer III" sale focuses on our 100% Red Angus seedstock operation. We are so pleased with the tremendous maternal capabilities of the Red Angus breed – great mother cows make great bulls and replacement heifers.

We are working hard to bring you animals, genetic interest opportunities, flushes, embryos, and semen from animals that are helping us to achieve our "3P-75.75.35" program. Boldly stated, the "3P" stands for Phenotype, Power, and Profitability.

We are committed to a rigorous development program that brings eye-appealing, easy-fleshing, deep-bodied Red Angus cattle with structural correctness to live in your herd for a long time. That's the 3P portion of the program. The phrase "75.75.35" is our way of setting the goal to have the progeny born and raised here have 75% of those animals with at least 75% of their EPDs ranking in the top 35% of the breed.

Our commitment is to improve the genetic merit through paying attention to structural correctness and EPD performance in connection with new DNA techniques.

To our established customers, we thank you for your on-going support of our operation and cattle.

To our possible new customers, we invite you to contact us to answer any questions you may have. We thank God for the blessings He brings to us through establishing these relationships.

ALL THE BEST!
SCOTT & SUE BACHMAN

Terms, Conditions and other information for the Private Treaty Sale

Contacts:

Scott Bachman	(660) 247-1112	scott_bachman@yahoo.com
Danny O'Dell	(660) 247-1895	danoodell4479@gmail.com

Cattle Viewing:

The cattle can be viewed at the farm:

Bachman Cattle Farms, LLC
17520 Hwy JJ
Chillicothe, MO 64601

We'd appreciate a phone call and/or an email to coordinate visits to the farm to view cattle.

Payment Terms: Checks are to be made out to Bachman Cattle Farms, LLC and paid in full before loading out any cattle. Likewise checks for genetic lots (embryos, flushes, semen and genetic interest rights) are to be paid before any shipments are arranged for frozen embryos and semen.

The right of property shall not pass until complete settlement is made.

Purchaser's Risk: Each animal becomes the risk of the purchaser as soon as it is sold. Animals will be fed, watered and cared for at the purchaser's risk for one week after the sale. After that, there will be a per day feed cost added to the purchase price, payable before possession occurs.

Liability: Neither owners, employees and anyone connected with the sale assumes responsibility, legal, or otherwise, for damages of any kind. Anyone attending the sale does so on their own risk.

Implied Warranty: Except for those stated in the terms and conditions, there are no warranties, whether expressed or implied, as to merchantability or fitness for a particular purpose with respect to the cattle being sold in this sale. The warranties set forth in terms and conditions are in lieu of all other warranties, either expressed or implied and the remedies proved therein shall be the sole and exclusive remedy of the buyer, or any part claiming through buyer, for any breach of warranty or guarantee therein provided and all other obligations or liabilities.

We start the private treaty sale with our yearling bred heifers, and oh my, **LOT 1** is a great one! This stylish heifer is deep, soft, and thick. We've had great success with her dam, JEFFERIES MS CHINOOK S020E ET. Match her physical correctness together with multiple EDPs in the top 1% ranking, and you have a very powerful, "Bachman Bred" female who could go on to your donor pen OR add to a commercial herd. We are selling some of our best to allow you to "Change Your Game"! You get style, power, performance, and she meets our "3P-75.75.35" program goal. She has the 3Ps - **Phenotype, Power & Profitability** combined with 72% of her EPDs in the top 35% ranking. With a 5-star classification for docility, she is sure to pass this trait for generations to come. Bachman Cattle Farms, LLC will split the flush opportunities with our new partner while retaining her natural calves ****Selling 50% genetic interest, split flush rights, with no possession** \$7,500 or best offer.**

When we flushed B806 (we call her "RENO") to RED BLAIRS BINGO 581B we were trusting our eyes that we'd get a powerful combination of both these animals in their calves. We now have calves from this mating and they are simply fantastic! "Bingo-Reno", no need to gamble with this combination.

Sometimes you are fortunate enough to have a bull develop that continues to exceed your expectations. **BACH MR CRACKERJACK F11E ET** has been that type of bull - he's exceeded our expectations every time we measured him and tested his performance. He had that curious and gentle personality as a calf and maintained his gentle disposition even as a two-year old. He comes from a farm favorite Bieber Adelle 184B that had great success in the show ring last year as a 5 year old cow. We take great pride in Adelle and her phonetically superior features that still catch the judges eye at that age. We are sure F11E will do just the same doing his job out in the pasture breeding cows. Safe to breed to any age or size of cow, he will add growth to steers ad longevity to heifers. Stayability ranking in the top 2% is outstanding. Take a look at **LOT 8** for a flush to Adelle. **Selling a 50% Genetic Interest position and split pasture rights. Bachman Cattle Farms, LLC to retain Fall Pasture rights. Spring pasture rights defined between May 1 - July 31. New 50% partner to receive 200 units of semen. \$10,000 or best offer.**
