SPECIAL THANKS TO RICHEY TAGS

For supplying our custom sale tags

Welcome to the Show Me Reds Sale

Welcome to Southwest Missouri & to the Missouri Red Angus Associations Show-Me Red Sale! Red Angus continues to lead the industry as cattlemen demand quality genetics with strong maternal traits. That is why the Red Angus/Red Angus influenced females continue to be the most sought-after female in the beef industry today. You ask why? It's all about the cow & the "ility."

- Motherability
- Fertility
- Docility
- Stayability

In 2020, the MORAA rolled out the Fescue Belt Certification Program. We did so in an effort to identify fescue based Red Angus animals that were born, bred & raised on fescue. Since fescue was introduced into the region, MORAA members have built their herds using genetics that have proven to be "fescue tolerant". As you browse the catalog, you'll find these animals identified as such.

We are confident that our members are offering you some of the top Red Angus genetics available today. Whether you are looking for a fancy little show heifer, females to start or expand your herd, a bull or a top set of commercial females, make plans to attend this great event.

The cattle will be in place & available for viewing on Friday afternoon & early Saturday morning. Whether you intend to bid, buy or just come visit, we truly look forward to seeing you on sale day. If you are unable to attend, don't hesitate to contact any of the owners or buyer representatives listed in this catalog. Additionally, the sale will be broadcast live over the internet through DV Auction.

Best Regards,

Dan Lacy

MORAA - President

Terms

All purchases must be paid in full within four (4) days of the conclusion of the auction. If buying online you MUST WIRE the funds to Gilchrist Auction account by the following Tuesday at noon central time or have a check in the mail postmarked April 26, 2021. If you are buying for another party, YOU MUST PAY WITH CASH or CHECK at the conclusion of the auction. Buyers in this auction and Gilchrist Auction Company are regulated by the USDA Packers & Stockyards Act. Transactions must be in U.S. funds.

Purchaser's Risk

All animals are the owner's risk prior to their sale and become property of the purchaser as soon as declared sold by the auctioneer.

Bidding

Any disputes or challenges regarding bids or tie bids will be settled by the auctioneer and his decision will be final.

Certificate of Registry

A certificate of registry for cattle will be transferred to buyer.

Announcements

Any errors or changes in information contained in the catalog will be announced from the block and such announcements shall take precedence over the information contained herein.

Health

All animals are eligible for interstate shipment. Interstate health papers prepared by an accredited veterinarian will be furnished on each animal sold.

Breeding Guarantee

All animals are guaranteed by the seller as outlined in the Red Angus Association of America code of ethical sale practices.

Liabilities

All persons who attend the sale do so at their own risk. The seller, auction facility, and sale manager assume no liability for any accidents that may occur. Neither does the seller, auction facility or sale manager assume liability for the loss or injury to livestock due to theft, mysterious disappearance, sickness, improper handling or act of god. It is to be clearly understood that the sale manager and its representatives act only as a medium between the buyer and the seller. They are not responsible in any way for the failure on the part of the buyer and the seller to live up to their obligations or for the truth of any warranties or representation, express or implied. Neither does the sale manager assume any financial obligations to collect or enforce collection of monies between parties. Any legal action must be between the buyer and the seller. This catalog has been prepared by the sale manager from pedigrees and information supplied by sources deemed reliable, however, the sale manager will in no way guarantee the pedigree, percentages of the animals selling, or data included in this catalog. Any exceptions taken are between the buyer and the seller.

Contract

The above terms and conditions of sale shall constitute a contract between the buyer and seller of each animal and shall be equally binding upon both. Each sale or resale of an animal constitutes a separate transaction.

Missouri Red Angus Association

Fescue Belt Certified Program Announced

The Missouri Red Angus Association's Board of Directors recently approved the "Missouri Red Angus Association Fescue Belt Certified" program as an initiative designed to promote Missouri Red Angus members genetics.

Official MORAA Fescue
Belt Certification Logo

Many of us who live in the "fescue belt" have experienced the problems associated with importing newly purchased cattle into our environment. What we've seen is a significant percentage of cattle that have not been raised on fescue struggle to perform after being imported onto this "grass we love to hate". Some animals eventually overcome this issue, but many will not and will eventually be culled from the herd.

Fescue toxicity results from toxins called ergot alkaloids, which are produced by a fungus called endophyte that grows within the fescue plant. Cattle experiencing fescue toxicosis may exhibit rough hair coats, heat stress, suppressed appetite, poor growth rates, reduced reproductive performance, and in some cases lost tail switches or even hooves. The decreased animal performance seen during the "summer slump" of cool-season pastures is made even worse by these toxic effects of fescue.

Research on the subject of fescue management has been done for years. Several strategies can be used to mitigate the toxic effects of fescue, including removal or suppression of seedheads, overseeding of pastures with legumes or other forages, and good mineral supplementation programs. However, fescue remains a serious challenge. The USDA estimates fescue toxicosis costs the U.S. beef industry an estimated \$600 million to \$1 billion annually in lost revenue because of reduced reproductive and growth rates in cattle herds.

Missouri beef producers recognize the value of selecting cattle that are adapted to fescue. In 2016, University of Missouri Extension Geneticist, Dr. Jared Decker, was awarded a \$3 million grant from the USDA to evaluate genetic differences in cattle among regions. Decker and his colleagues are utilizing DNA markers to study the interactions between cattle DNA and the environment. The study is focused on DNA, hair shedding, and tall fescue forage. When complete, the data will be used to design region-specific EPDs.

The entire state of Missouri is situated within the fescue belt. Since fescue was introduced into our region, Missourians have built their herds retaining only genetics that have proven to be "fescue tolerant." When looking for Red Angus genetics, look for the MORAA FBC logo & cattle that have **"Bred-in Fescue Tolerance."**

Red Angus Guide to EPDS and Indexes

ProS... Profitability and Sustainability is an all-purpose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and sold on a quality-based grid. Traits included in this index include calving ease, growth, HPG, STAY, Mature Weight, Dry Matter Intake and carcass traits. The resulting index is expressed in dollars per head born (Index/High Value).

HB HerdBuilder is a maternal selection index that predicts the economic differences of animals for traits that are important from conception through weaning. Expressed as dollars per head born, HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained and all remaining progeny are marketed at weaning. Traits included in the HB index include Calving Ease Direct, Calving Ease Maternal, Weaning Weight, Milk, Mature Weight, Heifer Pregnancy and Stayability (Index/High Value).

GM..... GridMaster is a selection index that predicts the average economic difference of non-replacement calves through the post-weaning phase of production. GM places selection pressure on growth, feedyard performance and carcass traits. Expressed as dollars per head born, GM is calculated based on the scenario that progeny are fed out to slaughter and marketed on a quality-based carcass grid. Traits included in GM include Average Daily Gain, Carcass Weight, Dry Matter Intake, Marbling, Back Fat and Rib Eye Area (Index/High Value).

CED Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams. (Percent/High Value)

BW Birth Weight predicts differences in actual birth weight of progeny. (Pounds/Low Value)

WW Weaning Weight predicts differences in 205-day weaning weight. (Pounds/High Value)

YW Yearling Weight predicts differences in 365-day yearling weight. (Pounds/High Value)

ADG Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. (Pounds/High Value)

DMI Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the post-weaning period. (Pounds/Low Value)

MILK Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. (Pounds/High Value)

ME Maintenance Energy predicts the difference in maintenance energy requirements. (Mcal per Month/Low Value)

HPG Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. (Percent/High Value)

CEM Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers. (Percent/High Value)

STAY Stayability predicts differences in the ability of an animals' retained daughters to remain productive in the herd – calve every year – through 6 years of age. (Percent/High Value)

MARB Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib. (Marbling Score Units/High Value)

YG Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. (Yield Grade Units/Low Value)

CW Carcass Weight predicts differences in actual hot carcass weight. (Pounds/High Value)

REA Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib. (Square Inches/High Value)

FAT Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. (Inches/Low Value)

Selling two Genetic opportunities out of the 2013 National Champion Keifers Lulu Y55, Reg.#1425806. Lulu never misses and these two proven sires mated to her offer a rare opportunity to place genetics into your herd that should be so exciting. Whether it be in the show ring or in the pasture, we can't say enough positive things about this amazing cow. Her progeny have great phenotype and are easy doing and always excel in contemporary groups. Offering two lots of 4 IVF embryos; one out of the National Champion Mulberry 26P (1151261) and another lot of 4 embryos out of the proven cow maker, Ringstead Kargo 215U (1599311) sire. Semen is very limited on both of these proven sires and mated to the proven time after time Lulu Y55, they are sure to be great ones. Don't miss this rare opportunity!

CHOICE LOT FROM ELLIS CATTLE

FALL OPEN HEIFER

Offered by: ELLIS CATTLE COMPANY

People that have bought bulls this year or visited us have been very impressed with our replacement heifers, including Ennis Wallace who picked out his favorite of the group. This prompted us to decide to bring three of our top heifers for you to decide which is your favorite of our fall weaned heifers. These heifers will be September/October 2020 born, and from such sires as PIE One of A Kind, Ringstead Kargo 215U, Tommy Jack, or Red Blair's Signature 6D. Your choice might be the Kargo heifer out of this great Mulberry female--make your choice as I plan to bring back two of them!

MCL Annie 016D 0539 comes straight from the heart of our operation. Long necked with a big, bold rib cage, plenty of power and sound on the move, this female is destined for success. Her sire HRR Copperhead E064 is consistently siring cattle for us with look, power and growth. Combine her sires growth, with her dam's proven cow family we think she is a home run. Any junior looking to for a show heifer that is backed by a proven cow family, be sure to not miss her on sale day.

LOT 7 - MCL Annie 016D 0539

Being part of the fastest growing breed in the nation, it's not unusual to talk to folks wanting to get started or grow their Red Angus herd. With that in mind, we wanted to consign a unique "Herd-Building" opportunity! Choose one, two, or all three of these Fall open heifers to get your program off to a running start with some of the breed's most sought-after genetics. Buy with confidence knowing that these three heifers, who all rank in the top one-third of the Herdbuilder index, will put you on a path to building your herd with proven maternal traits that Red Angus are best known for. Follow Campbell Creek Red Angus for photos/videos closer to sale date.

The Cora Belle 029H heifer is an ET calf out of the high-profile donor--Miss Cora De 867Z from the Blair's Ag program, an extraordinary Detour 2W daughter known for making phenotypically striking females. Her sire--Pelton Wideload 78B, a popular A.I. sire, is known for producing broody, feminine replacement heifers that stand out for fleshing ability, soundness and a quiet demeanor.

Split Rock 211H another ET calf produced by two top breed influencers Brylor New Trend 22D & Van Wye Split Rock 35X. New Trend 22D is the #2 Red Angus bull for registrations in Canada. He is known for producing high performance cattle but most notably is the maternal strength of his amazing daughters. On her dam side, current owner Niobrara Red Angus, described Split Rock 35X as the most MASSIVE cow on the ranch and one of the most impressive donor cows to go through the Wildcat Creek Ranch Dispersal.

Wrapping up this trio is JOJO 052H. Of all our Mulberry 26P females, Jojo's maternal granddam is a long-time favorite. Jojo's dam is sired by our former herd sire--Andiamo 9A, who produced the 2018 Grand Champion female at OEF, MO State Fair, and Tulsa Fair. We love his females and don't frequently part with them! Jojo's sire, produced by Twin Willows, is a product of a \$20,000 top-selling heifer--RED SSS TARA 533C from the SSS program and the Canadian powerhouse - Flying K Max 159Y. One look at her grandma and you can see why she is included in this Herd-Building group!

Magnificent Lady is out of a set of embryos purchased from Kevin Blair and is out of one of the great donors Red Towaw Cooper Lady 8T and the very popular Red U-2 Reckoning 149A bull. This heifer was impressive since day one and has grown into a really nice heifer. Only reason I am parting with her is due to having a full sister born this January. On 9-29-19 she was vaccinated with 7-way blackleg haemophilus, 5 way (IBR BVD BRSV PT3) pasteurella, Inforce 3. On 11-3-20 wormed with safeguard and poured. On 11-19-20 she was bangs vaccinated. She's been on a custom mineral program and was born and raised on certified fescue pasture. She will be halter broke check her out in person!

Miss Fusion is one really nice thick made half blood Red Angus cross Simmental heifer. Miss Fusion's dam was flushed as a open heifer and her embryos were sold in Denver and Fort Worth. Miss Fusion is the first natural calf out of this young donor. Miss Fusion is impressive with numbers and phenotype, ranking in the Top 1% in WW, YW, YG, REA, Fat, Top 2% ADG, Top 3% CW, GM and Top 9% PROs. On 9-29-19 she was vaccinated with 7-way blackleg haemophilus, 5 way (IBR BVD BRSV PT3) pasteurella, Inforce 3. On 11-3-20 wormed with safeguard and poured. On 11-19-20 she was bangs vaccinated. Attractive, long bodied, and feminine fronted, BRAX KELSEY 015, is an exciting replacement who offers unlimited mating potential. Her sire is the performance leader RAVN LINEBACKER C537, which anchors the BEEF-360 Red Angus line-up. KELSEY'S dam is a beautiful, dark red, great uddered young BIEBER SPARTACUS daughter and traces back to the powerful RACHEL and PHYLLIS cows from Rich Red Angus in Iowa. Her EPD's offer big time spread from birth to yearling. Open and ready to breed.

LOT 26 - TW Jillian 986G

WOW! From the heart of the Twin Willow Show and Breeding program. She's a daughter by Gravity 296E out of one of our favorite cows that we purchased out of the Damar herd. "DAMAR Z289 JILLIAN Z405". She's a great one! We love this heifer and her dam. This heifer has real breeding potential. She was Grand Champion female at the Ozark Empire Fair 2020. She's PE to Red SSS Tycoon son out of one of Twin Willow's top cows we used this year. TW Tycoon 931G 4182526. Selling half interest in this amazing young heifer. Twin Willow will retain possession until after her show career is over. TW will pay for all expenses for her campaigning this next show season and we have high hopes for her. TW will want to place her into embryo transfer after she calves, and the costs will be split with the new partner. We are open to negotiations of possession and breeding options with our new partner as a cow and look forward to partnering with her.

Here's a dark red one, out of the heart of the Twin willow breeding program. A Trump daughter out of one of Twin Willow's top Donors, the "DAMAR 231X FAYET A153" The A153 cow is from the Damar herd, a daughter by Commitment out of a full sister to the great Mulberry 26P bull. The A153 cow is also the dam to TW Hard Line, so this heifer is stacked with proven performance. She sells safe to her AI date of 12/09/2020 to TW Bulls Eye 715E (3865543) We love this bull's calves and used him heavy in our AI program this year.

TLC Gladys 932G is our pick from TLC Livestock's 2019 sale. Gladys is a larger framed heifer, and we really like her pedigree going back to HXC Conquest 4405P (975924). She's in the top half of the breed for WW, YW, and ADG. Bred to 3SCC Domain A163 (1619642) on 12/18/20, we're excited to see how this cross turns out. We really hate to part with this girl. Due to calve on 9/26/21.

EWRA Monu NB G137 (4099610) is one of our top bred heifers from the great Monu line on the dam side and Beckton Nebula P707 (RAAA#979031) on the sire side. Monu was pasture exposed 6/1/20 – 10/1/20 and is confirmed bred to our herd sire EWRA Impact E082 (RAAA#3737059). Monu should calve before the MORA sale or shortly thereafter. With Stayability numbers in the top 2% Monu will be in your herd for a long time. With HerdBuilder and ProS numbers in the top ranks you can expect that she will be a profitable cow for your herd. EWRA Monu NB G137 is Fescue Belt Certified so you can put her out on fescue pasture with no problems. Monu received a full set of shots 3/6/21 including Covexin 8, Vira Shield 6 + VL5 HB Somnus, Pulmo-Guard PHM-1, Dectomax injectable wormer.

A really nice fall bred heifer with a stacked pedigree. Naturally serviced by our herd bull Country Acres Chesapeake 611 Reg (4304501) who was the 2020 Reserve Fall Bull Calf Champion at the North American International Livestock Exposition (NAILE.) This moderate framed female is correct and docile. She has been developed on grass with very minimal commodity feed. Confirmed safe on March 3rd with a bull calf due on 9/21/2021.

A donor in most pastures, this 152 comes from a Damar cow from the great Mesmer Packer bull. Sired by New Direction, she is super efficient, moderate but powerful. Great disposition, has produced two heifers we are keeping in the herd. Not even reaching her prime years yet, this six year old will send a show heifer to the final drive for sure. She had one of our best bull calves in 2020. Selling a super high end cow to make room for a big group of ET heifers. 152 sells confirmed bred with a AI date of 1-3-2021 to our outstanding Pie One of a Kind son, Ty-Be The Great Bambino, and was PE on 1-4-2021 to 3-20-21 to our herdsire MNS Red Hot 5750, Reg # 3522661, a very powerful Code Red son.

A really clean fronted maternal and feminine Major League granddaughter with Blockanna breeding on the top side has always delivered super solid calves for us. Needing to make room for a large group of ET heifers makes us sell some hard decision ones. A super quiet easy keeper, this cow is why we love Red Angus. She sells confirmed bred with a PE date of 1-4-2021 to 3-30-21 to our Herdsire MNS Red Hot 5750, Reg # 3522661, a very powerful Code Red son.

**LOT 43 - CR Hazels Vandee**

CR Hazels Vandee was purchased from CR cattle company as an open heifer, she is sired by Andras Mr Black Jeans R179 and on the bottom side Six Mile Timberlake 180T. She has a Top 16% WW, 19% YW, and is a modern frame cow. Her first calf was a bull calf that made the cut to join the others in the development pen and was one of the first heifer bulls to be sold early private treaty in January. She is safe in calf due around mid July to Rojas Pamplona 6110 reg # 3531674 or D-BOR Power Eye G10 #4136392 (calf will need DNA tested for sire). Ultrasounded on 2-17-21 and poured with clean up and wormed with Synanthic. She's been on a custom mineral program and was Born and raised on fescue. Only selling due to falling out of my calving period.

We have a big group of replacement heifers entering the herd in the next year, so we need to start making room for them. This cow made the sale list as she was the only cow to lose her calf this past fall. Her PIE One of A Kind heifer calf was born unassisted (68#), but died a couple days later after something killed it. B409's 2019 heifer is in our replacement pen. B409 was exposed to Red Blair's Signature 6D (#3920481) from Dec 1 - March 1. Breeding status available day of sale.

We purchased 37E's dam--GJRA/LZYJ QUEENPOWR 3205 in 2017 at the Ft. Worth Showcase sale, and we are so glad we did. She has been a tremendous cow for us, and offering her daughter in the MO Red Angus sale was a hard decision to make. 37E has a nice son in our bull pen. 37E was exposed to Red Blair's Signature 6d (#3920481) from Jan 1 - March 1, and observed bred on 1-12-21.

Mushrush Pridegail JL C120 (1745532) is a top notch female that came to us as a bred heifer from the impressive Mushrush herd with Beckton Julian X321 (RAAA#1382993) as her sire. She has raised 4 calves while here on the farm, 1 is a herd sire for us and her most recent heifer from 2020 will be available at the MORA fall 2021 sale. She was pasture exposed 7/1/20 - 11/1/20 and is bred to one of our herd sires, a Beckton Nebula P707 son, Mushrush Nebula C016 (RAAA#1745466) or a Beckton Nebula P707 grandson, EWRA Nebula Conquest E086 (RAAA#3737053). Pridegale received a full set of shots 3/6/21 including Covexin 8, Vira Shield 6 + VL5 HB Somnus.

Maple is an ET cow with full sibs working in my herd. Dina was my very first red angus purchase and she has definitely made an impact in my herd. She is a dark red, easy fleshing, deep bodied frame 6 cow. She always breeds on time and never misses regardless of what bull she is mated to. If you're looking for a dependable cow to add to value to your herd, do not over look this lady. She has a bull calf at side sired by CR Aspens Pesto (389747) born Jan 30, 2021. This close mating was not really planned, but it certainly worked. This calf has a lot of potential. Photos will be posted to our Facebook page, CR Cattle Company, closer to the sale date.

This will be our first time consigning to this sale and we thank y'all for allowing us to do so. Here we have a direct daughter of Red Soo Line Baneberry 5238, who was the lead off donor in the 2015 Wildcat Creek Dispersal. We brought this cow home and she has exceeded our expectations and will hopefully do the same for you as she still has a lot of life ahead of her. Everything you want in a cow--a great udder and feet all in an easy fleshing moderate package. She sells with a very good January bull calf by her side (#4398427) sired by BFRA JTB Maid For Power 1903, the 2020 Dixie National Champion Bull. She sells open since we are so close to the sale date, but a good possibly we get her bred prior to the sale.

Very unique genetic package for your review. Here's 2 in 1 cow-calf pair that also goes back to the Wildcat Creek Dispersal. Cow family goes back to the Bieber Design female and out of CT King Ram sire. This deep red, easy fleshing calf raising machine sells with a January bull calf (#4398425), sired by BFRA JTB Maid for Power 1903, the 2020 Dixie National Champion Bull. This cow will produce progeny with good udders, structure and feet. Get her bought and take her home to turn her out in your front pasture. She looks that good and with a lot of life ahead of her! She sells open since we are so close to the sale date, but a good possibly we get her bred prior to the sale.

Nexus anyone? Here's an outstanding young 4 year old Silveiras Mission Nexus 1378 daughter with a March heifer calf (#4398429) by her side sired by BFRA JTB Maid for Power 1903, the 2020 Dixie National Champion Red Angus Bull. This cow goes back the Rebella cow family which has been good to us for years. Exceptional EPD's that certainly match the pedigree and phenotype here. Very sound investment that can change the direction of your herd. She sells open since we are so close to the sale date, but a good possibly we get her bred prior to the sale. We will have updated pregnancy info the day of the sale.

GT CITA 4060 - Dam of Lots 62 & 63

RED BLAIRS SIGNATURE 6D - Sire of Lot 64

WOW!! We are beyond excited to offer these potential herd-changing ET brothers out of breed legends Blair's Bingo 581B & GT Cita 4060! The sheer mass, eye appeal, and cat-like moves of Bingo commanded a \$60,000 1/2 interest selling price, not once--but TWICE in his young career. Their dam Cita 4060 is arguably one of the most influential females in the breed. She is the dam of A.I sires PZC TMAS Firestorm 1800 and WR Mr. Forbidden 2514. She has produced two National Champion females and multiple purple-ribbon progeny across North America. Her genetics are so sought after that embryos peaked at \$4500 EACH and a single flush sold for \$20,000 in Denver 2016. In 2017 (at 13 years of age) she sold for \$50,000 1/2 interest. This may be your only chance to make a buying decision that could make the kind of impact on your herd that these young studs offer. Don't settle on choosing between a bull to add pounds OR produce that next champion when you could have the best of both worlds...don't miss this rare opportunity! Retaining 1/2 semen interest. DNA tested--OSF. Follow Campbell Creek Red Angus for photos/videos closer to sale date.

You're going to like this one! Gentle, thick, deep-middled and stout on his legs! Plus, that dark red color! This guy has been one of my favorites, and I think he will be one of yours once you see him. Sired by Red Blair's Signature 6D (#3920481) and out of our prolific Sensation cow family. If you need a bull, pay attention to this one!

Outstanding calving-ease heifer bull that is dark red, slick haired, expressively muscled and smooth made. Fall born bull with that extra age to cover a few more females, BRAX 1937 offers calving ease, low birth weight, and extra weaning growth all in the top 25% or better in the Red Angus breed. His pedigree combines highly proven sire JACOBSON FREEDOM stacked on a beautiful MUSHRUSH IMPACT x BIEBER MAKIN HAY daughter, who did an outstanding job raising 1937 and has another stud bull calf at side this winter. Did we mention elite marbling potential also with his Marbling EPD in the top 17%! Complete and balanced Red Angus genetic package. EPD's will be genomic enhanced by sale day. Ready to turn out.

BRED HEIFERS**

Offered by: STEINBECK FARMS

Eight fancy commercial bred heifers, four red baldy, four solid red, 50% RA sired by R4RA Mulberry 155 Reg # 1503884 out of Hereford and Black Baldy Dams. Heifers were born Sept and Oct 2019. A/d to our calving ease bull Brown Persistence D366 Reg #3593196 starting 11/22/20 through 12/3/20. Pasture exposed to RLS B544 Federation 745 Reg # 3880563. Selling in 2 groups of 4.

Double V is a local, progressive, and mindful Red Angus breeding program utilizing the RAAA Red Navigator DNA testing program to parent verify and make EPD projections to assist with management decisions in overall herd improvement and calculated breeding decisions. The pair of Spring bred heifers rank in the top 2% & 3% respectively and the 3-year old is in the top 13% of the breed on the Herbuilder Index! Both lots are A.I. sired by H2R Profitbuilder B403. The heifers are bred to a Redemption or Statistician son and the cow calved mid February with a bull calf sired by a MEW Platinum son. Buy with absolute confidence from a program designed to be consistent with the rigorous standards set by the MO Show Me Select Replacement Heifer Program. Heifers have been pelvic measured, tract scored, vaccinated, and ready for your green pasture. UPDATE: one heifer calved a bull 3/26/21.
